Angel Reyes

Frontend Developer | React | JavaScript | Next.js

linkedin.com/in/angelmonoestereo | github.com/angelmonoestereo | angel@monoestereo.dev | +1 407 497 5043 | Orlando, FL

Frontend Developer specialized in React, Next.js, and JavaScript. Passionate about building clean, responsive UIs with smooth animations and strong performance. Experience includes real-world projects for Skinstric (AI analysis UI + camera capture flow) and NFT (responsive React landing). Deployed to Vercel, using Git/GitHub collaboration and CI/CD workflows.

Professional Experience

Skinstric AI – *Frontend Developer Intern*　　　　　　Remote | Aug 2025 - Sept 2025

- Built end-to-end camera flow using getUserMedia with consent/overlay, tips, and snapshot; added client-side JPEG compression + error/fallbacks.
- Shipped analysis UI with tabs (Race/Age/Gender), normalized mixed API shapes (0–1 / 0–100 / arrays), sorting & % display; added routing + localStorage.
- Deployed to Vercel; lightweight CI with GitHub Actions; responsive & performance-minded.
  Live: skinstric-two.vercel.app | Code: github.com/angelmonoestereo/skinstric

NFT Internship (React)　– *Frontend Developer Intern*　　　　　Remote | July 2025 - Aug 2025

- Developed responsive landing and interaction patterns in React using reusable components and light animations.
- Set up the project with Vite/React and deployed to Vercel; implemented basic SEO and accessibility checks.
- Collaborated through Git/GitHub with PR reviews and iterative feedback.

Synchrony Financial – *Customer Service Executive*　　　　　Orlando FL | Oct 2023 - Present

- Supported secure access requests and customer verification within compliance requirements.
- Maintained onboarding documentation and accurate tracking logs; partnered with internal technical teams to resolve requests quickly.

DAS Digital LLC – *Web Developer*　　　　　　　　Remote | Jan 2018 - Dec 2020

- Built and maintained WordPress/Shopify sites with attention to performance and security.
- Implemented authentication/RBAC and resolved production issues; collaborated with designers to improve UX and conversion.

Personal Projects

Selected personal projects demonstrating React, routing, API integration, and responsive UI design.

Record Store — React App
- Search & detail UI with routing; clean responsive design.
  Live: https://react-record-store-api.vercel.app | Code: https://github.com/AngelMonoestereo/React-Record-Store-AP

React Movies Clone
- Browse/search UI with React Router and reusable components.
  Live: https://react-movies-clone-v2.vercel.app/ | Code: https://github.com/AngelMonoestereo/react-movies-clone-v2

YouTube Clone (React)
- Built using React and RapidAPI; implemented reusable components and responsive layout.
- Video feed, detail view, and channel layout demo.
  Live: https://youtube-clone-react-v5l4.vercel.app | Code: https://github.com/AngelMonoestereo/youtube-clone-react

Technical Skills

Core: React, Next.js, JavaScript (ES6+), HTML5, CSS3, REST APIs, Git, GitHub, GitHub Actions, Vercel, Figma, Accessibility (a11y), Web Performance, getUserMedia (camera), Client-side Image Compression
Familiar: TypeScript (basic), Tailwind CSS (basic), Node.js (basic), WordPress, Shopify
Tooling: Vite, React Router, Axios/Fetch, Chrome DevTools

Education and Certifications:

Frontend Simplified — Frontend Developer Program, *Certificate*, 2025
University of Central Florida — AWS Cloud Architecture, 2023
AWS Cloud Practitioner — Amazon Web Services
